### THE TAXES IN PORTO RICO

A Comprehensive Document Presented by Senator Foraker.

Spanish Schedules to Be Used as a Basis for American Collections-Receipts for the Past Year and Estimates for Future Needs-Various Classifications in Regard to Land.

Senator Foraker has presented an elaborate document relative to the levy and collection of taxes in Porto Rico, translated in the Division of Customs and Insular Affairs, War Department, together with a translation of the Spanish Porto Rican tariff and a statement of the Auditor for Porto Rico. The paper was prepared especially for the information of the Senate and gives a verbatim copy of the tax schedule as levied by the Spanish Government, to be used as a foundation for the collection of receipts.

Following the voluminous list which provides for taxes on everything and everybody save educational and religious institutions supported by the state, is a statement of internal revenue, exclusive of land taxes, collected from October 18, 1898 to March 1, 1900, by the United States officials. A footnote states that since July 1, 1899, the cattle tax has been abolished. The revenues from taxes and imposts from October 18, 1898 to March 11, 1899, collected in pesos, were: Taxes and imports, 114,010.63 pesos; stamp duty, 8,633.17 pesos; insular property, 2,867.28 pesos; miscellaneous, 20,000 pesos. The total in American money was \$87,270.43.

From March 12, 1899, to June 30, 1899, the receipts were \$46,746.93. The total internal revenue receipts from October 18,

o March 1, 1900, will be swelled to \$285,-

system of internal revenue taxes on in-dustry and commerce, as collected at the present time, was instituted by royal decree, transmitted under communication No. 279, dated June 17, 1893, by the secre-tary of colonies to the governor general, and which became operative on July 1,

"The tariffs relating to the tax on in-"The tariffs relating to the tax on industry and commerce are five in number, having as a basis the scale of population of the several cities and towns of the island. These five tariffs are sub-divided into eight classes, having six sub-divisions, determined according to the importance of the towns comprised therein.

the towns comprised therein.

"School Tax—This tax is provided by General Orders, No. 176, November 7, 1899, Headquarters Department of Porto Rico, substituted by General Orders, No. 26, February 6, 1900. An annual school tax of the percapital is imposed on various persons classified and specified in said orders.

justice, \$2 each. Tax on Matches-A tax of one-tenth of

"Tax on Matches—A tax of one-tenth of 1 cent is required on each box of matches. "Tax on Liquors—A tax of 3 cents per liter (in addition to the consumption tax and licenses required by municipalities) is required of manufacturers of brandy, rum, or other alcoholic liquors, to be-paid by means of internal revenue stamps, to be affixed to each bottle, vessel, or package containing the class of liquor described. "Impost on Mineral Claims—The royal decree of January 15, 1867, regulates the

decree of January 15, 1867, regulates the taxing of mining property which requiring mining properties. The law of 1895 relating to mines and mining respectively. All mines pay a because it was not seen to what use the towned all previous ones. All mines pay a formed all previous ones. All mines pay a tariff according to the class of metal ex-tracted, gold paying more than copper, iron and other metals.

Rent of Salt Mines-According to the royal decree of January 15, 1867, a yearly tax of \$20 was imposed for each claim composed of 150,000 square meters; and acconding to law of 1895, a tax is required of \$1.60 for each claim composed of one hectara—10.000 square meters—so that the tax now imposed is \$24 for 150,000 square

"Fees for Trade-Marks-Under the General Statutes (Spanish Laws, August 21, 1884), a fee of 12.50 pesos was required, in stamp duty, for each trade-mark Issued and registered. The said fee is now collected in money (87.56), the stamp duty tax (stamped paper) being discontinued. "Weights and Measures—The metrical

system of weights and measures was first system of weights and measures was first declared compulsory on January 1, 1888. The revenue from this source is derived from the fine of \$10 imposed for any in-fraction of regulations issued by the Sec-retary of Finance, dated March 18, 1899.

"Tax on Oleomargarine—General Orders, No. 196, dated November 29, 1899, provides for a uniform consumption tax of 2 cents per pound on all oleomargarine imported into or manufactured in Porto Rico. For the collection of this tax the collectors of customs are appointed collectors of internal revenues, and it is provided that the tax on oleomargarine imported into the island

Bank Robbers Driven Off After Securing a Large Amount.

DELAWARE, O., May 9 .- Five robbers nearly demolished the Farmers' Bank at Sunbury at 1 o'clock yesterday morning by using dynamite to blow open the time safe, which contained about \$100,000. The bank is situated between two residences, with an alley on each side. The explosion knocked out the stone front of the building.

The noise waked the residents. The robbers began shooting in the hope of keep-ing the crowd away, but they were compelled to retreat to escape capture. They were compelled to leave the bags of silver and gold lying at their feet, getting nothing for their efforts.

### A VIRGINIA MURDER TRIAL.

Mystery, and Tragedy Make It a Notable One. RICHMOND, Va., May 9.-Love, roce, mystery, tragedy, all contribute to make the trial of Andrew Carter Gilligan one of the most sensational in the crimi-

nal history of Virginia. The trial began yesterday at Windsor, the little county seat of Isle of Wight county, which is seven miles from a railroad. The interest in it is intense. Hunreds of people drove or rode into Windsor, whose hotels will accommodate perhaps 200. The crowd will have to camp out, as it did when the trial was last called and adjourned.

The lawyers consumed the day in arguing for and against the admission as testimony of the love letters exchanged by Gilligan and Miss Isabelle Turner. Gilligan's fate lies in the pink palm of the daughter of the man he is charged with killing and in these love letters. His lawyers are strenously struggling for the admission of the letters; Miss Isabelle will be a wit-

che letters; Miss Isabelle will be a witness.

Gilligan is accused of murdering C. Beverley Turner, a rich and prominent citizen of Isle of Wight county, on December 27 last. Gilligan, son of Mr. Turner's overseer, and Isabelle, Mr. Turner's daughter, grew up together, and their youthful affection deepened into a sweeter passion. They knew that the aristocratic Turner, prod of his family and social status, would never consent to such a match.

In some way the old gentleman discovered their secret wooing and angrily for-

ered their secret wooling and angrily for-bade Gilligan to approach Miss Isabelle or to communicate with her. But the enam-ored pair still met and exchanged letters; a hollow tree was Cupid's postoffice for them; there Miss Isabelle placed her mis-sives and there she found the prevent sives, and there she found the answers to

It is supposed that Miss Isabelle's father learned, late last December, that she and her lover were still exchanging their vows and billets doux. Mr. Turner was killed some time after dark on December 27. He had left his house to go to his stables, a short distance away; a bullet had passed

"By General Orders, No. 180, November 16, 1899, Headquarters Department of Porto Rico, it is provided that the fees for licenses to carry arms (\$5-for each gun) shall be paid to the Treasurer of Porto Rico, since which time the total fees (to March 1, 1990) amount to \$1,995.54.

"Adding to the foregoing sum of \$268, 992.86 the estimated amount of tax on cattle to June 30, 1899 (\$14,571.97), and the fees for licenses to carry arms received by the treasurer (\$1,995.54), the total revenue receipts.

in about these words:
"I loved him, but it was his life or mine
I killed him in seif-defence."
It is also said that Miss Isabelle was

"Tax on Industry and Commerce—The stem of internal revenue taxes on instry and commerce, as collected at the stry and commerce, as collected at the

lawyers to withhold them, it is likely that the love letters that passed by way of that old tree will be introduced in evidence t prove that the girl, fearing for her sweet heart's safety, warned him of her father's deadly threats

The personality of those involved is not the least attraction to the people who throng the town. Miss Isabelle was the throng the town. Miss isabelle was the apple of her father's eye, the idol of his beart. She is but nineteen years old, with golden hair, fair complexion, blue eyes, a lovely mouth. She is a fine type of the Southern girl, acomplished, with gra-

cious, albeit dignified, manners. Young Gilligan was reared on Mr. Tur-ner's place. He is a tall, athletic, fine looksubstituted by General Orders, No. 26, February 6, 1900. An annual school tax of \$1 per capita is imposed on various persons, classified and specified in said orders. "Internal Revenue Stamp Tax—This tax is provided for in General Orders No. 175, November 7, 1899, and in General Orders, No. 211, December 14, 1899, Headquarters Department of Porto Rico. The taxes required to be paid by means of internal revenue stamps are as follows:

"Fees for Certificates—On certificates issued by any of the bureaus, internal revenue offices, custom houses, and courts of justice, \$2 each."

mer's place. He is a tall, athletic, fine looking fellow, who dresses well and carries himself in manly fashion. Mr. Turner owned large lumber mills and a line of vessels. His brother was an officer at Castle Thunder, the Confederate prison here, where prisoners accused of offences against the Southern Government were incarcerated during the civil war. One of these was Dr. Mary Walker, now so noted for her eccentricities of dress and opinion.

PLANS FOR THE LONG ISLAND.

Montauk Point May Be Made a Great Steamship Terminus.

The latest story regarding the recently announced purchase of the Long Island Railway Company by the Pennsylvania is that an all-rail route is to be established from the terminal cities of the country to a steamship terminus at Montauk Point, at the eastern end of Long Island.

There has been much discussion in the newly acquired line could be put. present alleged scheme at least furnishes a tenable theory. Tunnel connections with Long Island are to be utilized to their fullest extent, it is said, and trains run directly through from the Pennsylvania

and other systems.

If there is any truth in the rumor, the greatest secrecy is maintained by Pennsylvania officials and others who might be supposed to have information regarding it It is also said that there has been projected a connection from Boston and the East by way of Long Island and Staten Island with the Pennsylvania Railway near

Elizabeth, N. J.
People familiar with the close connections between the Pennsylvania and the
New York Central state that if there is any basis for such a story it is certain that the New York Central is also a party to the

NARROW ESCAPES FROM FIRE.

Twenty Horses Burned in a New York City Blaze.

NEW YORK, May 9 .- A score of horses were burned this morning in a fire on West Fifty-third Street that consumed the old iving about the stable.

The fire was discovered at 4 o'clock in the stable occupied by Patrick McClefty. fifteen of whose horses were in the stalls. Policeman Lanahan, of the West Fortyseventh Street Station, saw the smoke and sent in an alarm, after rousing the inmates, all of whom had to escape in their night clothes. Those persons living in the rear building, a dozen or more, had very narrow escapes, and had to be rescued by the firemen. Several children were caried out through the smoke.

house was one of the oldest in the neighborhood, being a landmark of the early set-

NEW YORK'S LABOR MARKET. Workers for the Underground Railroad Not in Demand.

### THOUGHT TO BE INSANE.

The Pennsylvanian Who Murdered

His Mother Raves Wildly. READING, Pa., May 9 .- Racked and exhausted from his ravings David Clay, the slayer of his eighty-five-year-old mother, two-story frame building at No. 551, and threw himself on his iron cot in cell 41 endangered the lives of several families in the new annex to the county jail last evening and pretended to sleep. Several times he leaped from his bed and shouted in an incoherent voice which echoed in a ghostly fashion through the corridors.

All day long Clay tore about his cell like

a mad man, one minute shouting about matters that did not have the slightest bearing on his awful crime, the next singing hymns in a weird tone.

Yesterday Clay confessed that he killed his mother "because the Lord told him to," and because she was a witch.

Today, however, when questioned again roady, nowever, was questioned again regarding the murder of his mother he appeared to know nothing of the tragedy, and declared he did not know his mother was dead. Beyond his incoherent statement that he had no knowledge of having committed acrime if was investible to make the contract of the contra nitted a crime it was impossible to engage him in anything like an intelligent rsation on account of his switching nto unmaterial matters, and then

on onto unmaterial matters, and then starting to sing.

Coroner Rothermel, County Detective Kershner, and sevens, others of Reading went to Mount Actna, where a post morwent to Mount Aetna, where a post mor-tem examination of Mrs. Rebecca Clay's body was made. Seven frightful bruisee, produced by the assassin's hammer, were found on the aged woman's head. It was the opinion that any one of the blows would have caused Mrs. Clay's death. Coroner Rothermel's investigation de-Coroner Rothermer's investigation developed a somewhat peculiar state of affairs. Soon after Mrs. Clay's death Justice of the Peace Snyder impaneled a jury and proceeded to hold an inquest which resulted in holding the son, David, responsible for the killing. It now appears that "The labor market is very flat in New York and building interests are falling off very materially. The tunnel has not yet started and none but citizens can be employed. This department is crowded every morning with men who come here to work on the tunnel. I am sending them home again. Business here is flat and thousands of immigrants are arriving every week."

SAID TO BE IN A TRANCE.

fairs. Soon after Mrs. Clay's death Justice of the Peace Snyder impaneled a jury like for the killing. It now appears that Justice Snyder's commission expired last Surday and, therefore, the inquest was lillegal. This was the decision of Coroner Rothermel, who today held an inquest, the jury returning a verdict that Mrs. Clay came to her death at the hands of her son, David, by means of a hammer.

SAID TO BE IN A TRANCE.

Physician Asserts That a Utah
Woman Is Not Dead.

SALT LAKE. Utah, May 9.—Dr. Colburn, of this city, caused a sensation yesterday by positively declaring that Mrs.
Sidonia Halverson, whose death was and the interesting that the burstend at the hands of her son, David, by means of a hammer.

The body of the murdered woman will be burled tomorrow morning. The funeral in which the victim was slain. Later services will be held in the United Brethren Church, Rev. Mr. Butterwick, of Jonestown, officiating. The remains will be interred in the little complexery adjusting. The authorities have set about to deter-mine the mental condition of the murderer. mine the mental condition of the murderer.
It is the general belief that Clay is of unsound mind. It is not unlikely that a commission in lunacy will be appointed. It
found insane he will be removed to an
asylum and consequently he will escape trial.

### NEWS FROM ALEXANDRIA

ALEXANDRIA, Va., May 9 .- The Grand Army of the Republic and the Confederate Veterans are preparing for the observance of the Memorial Days, which occur this month. Davis Grand Army Post dria and unite with them in the exercises attendant upon the decoration of graves of the Union soldiers at the Military Cemetery here. It has been hoped that General, Wheeler would accept the invitation, but Commander J. V. Davis received this morning a letter from General

on oleomargarine imported into the island shall be collected at the custom houses at the time of the importation.

"Tax on Playing Cards—This tax is provided by General Orders, No. 232, December 30, 1899, Headquarters Department of Porto Rico, imposing a tax of 20 cents on every pack of playing cards imported into Porto Rico, to be collected by collectors of customs acting in the capacity of internal revenue collectors.

"The taxation of lands on the island is determined by General Orders, No. 6, dated January 19, 1899, Headquarters Department of Porto Rico, and is based upon various cultivations and the quality of the land taxed. Paragraph 2 of said orders reads:

"In accordance with the various cultivations, there will be taxes on cane lands, minor produce lands, and forest lands. In accordance with the quality of the land, there will be taxes of the first, second, and there will be taxes of the first, second, and there will be taxes of the first, second, and there will be taxes of the first, second, and there will be taxes of the first, second, and there will be taxes of the first, second, and there will be taxes of the first, second, and there will be taxes of the first, second, and there will be taxes of the first, second, and the various cultivations of the land, there will be taxes of the first, second, and the various cultivations and the quality of the land, there will be taxes of the first, second, and the various cultivations, there will be taxes of the first, second, and the various cultivations, there will be taxes of the first, second, and the various cultivations, there will be taxes of the first, second, and the various cultivations, there will be taxes of the first, second, and the various cultivations and the quality of the land, there will be taxes of the first, second, and the various cultivations are the various cultivations and the quality of the land, to baccol lands, pasture lands, to baccol lands, pasture lands, to baccol lands, to baccol lands, pasture lands, to baccol lands, pasture l

minor produce lands, and forest lands. In accordance with the quality of the land, there will be taxes of the first, second, and third classes, the first class comprising the best land, the second class the next best, and the third class the poorest."

## PLANS FOR CYCLE PATHS

Marylanders to Build a Wheelway to Washington.

To Be a Part of the Great Trunk System of the Country-Special Commissioners to Take Charge of the Enterprise-What Has Already Been Done in Other States.

BALTIMORE, May 9 .- The Maryland Cycle Path Association officers, R. W. Graves, Henry V. Casey, Dr. W. Eason Williams, Albert Gambrill, jr., and Conway W. Sams, have been hard at work for months to secure legislation, and will probably do much in this State in cycle path building. It is believed that the State Sidepath Commissioners will be H. V. Casey, chairman, and Dr. W. Eason Williams, at Baltimore city; R. W. Graves, Baltimore county; James P. Curley, Laurel, Prince George county, and Mr. Iglehart, Ellicott City, Howard county, On assuming office a meeting will be held at which the question of whether to build

or let a contract for building the paths will be determined, and an active campaign for subscriptions will be outlined. An enthusiast has agreed to construct the first mile of the path. Mr. Casey makes the following state-

ment of the work done and to be accom plished: "The path will begin at Elkridge Landing. The road from Baltimore to Relay being very good, no path is necessary. As has been stated, the first path will be built from Baltimore to Washington by the Maryland Association. This is, however, a small affair when compared with the gigantic work being done by cyclers in

"The L. A. W. division in charge of the Chicago-New York trunk line are working energetically. Committees have been appointed and the officers of the various divisions through which the path will run have all plans prepared. The New York Division is leading the movement, and, by Division is leading the movement, and, by connecting the various paths already constructed, will be able to make their part of the trunk line an immediate success. Under the direction of Secretary-Treasurer Bull maps have been prepared showing the paths now finished in New York, amounting to some four hundred miles, and engineers have completed plans for the inter-ment have completed plans for the inter-vening stretches of road. Work is now progressing on part of these to make a complete stretch from New York city to the western boundaries of the State.

the western boundaries of the State.

"The path connecting New York and Chicago will be 968 miles long, of which 530 miles, or more than half, will be in New York State. The route as outlined will run from New York city to Poughkeepsie, Albany, Schenectady, Amsterdam, Utica, Syracuse. Rochester, Batavia, Buffalo, Erie (Pa.), Ashtabula, Cleveland, Elyria, Toledo, Butler, Goshen, Elkhart, South Bend, to Chicago.

"It Ohio and Indiana division will not be able to complete their part as rapidly."

be able to complete their part as rapidly as New York, as they have not the ad-vantage of paths already constructed, but the movement has been enthusiastically the movement has been enthusiastica received, and the officers of the division in those States promise to be not far behind New York, and it is declared that the path, as a whole, will be completed this

"The Colorado division is now at work or "The Colorado division is now at work on a proposition to construct a path from Denver to the Nebraska line. The Nebraska and the Iowa divisions have promised to carry it through those States to connect with the Minneapolis-Chicago path, There is a good path from Buffalo to Niagara and the Canadian Wheelmen's Association will build north of Buffalo through Canada

on the route to Detroit.

"St. Paul and Minneapolis cyclists have built 160 miles in the last eighteen months. They now propose to build eastward to Chicago, and it is safe to say that another year will see the proposition a completed.

"The cyclists of Maryland do not really recognize or appreciate the benefits and magnitude of the cycle throughout the country. It is safe to say from \$400,600 to \$500,000 has been spent in such work up to the present time, and an equal amount will be spent this year.

"The States of New York Pennsylvania, Connecticut, Minnesota, Ohio, Michigan, Maryland, Maine, Massachusetts, and Wisconsin have sidepath laws. Eight or ten special machinery to be used in construct

special machinery to be used in constructing such paths.

"I believe," said Mr. Casey, "that 'he
trade should come forward and take an
active and practical hand in the movement here in Maryland. I firmly believe
this will be a year of cycling equal to the
palmy days of '95 and '96, and with the
'completion of the path from Baltimore to
Washington the best record in the past in
point of the number of riders will be surpassed. With the completion of the trunk
line from Chicago to New York, thence ou
through the fine roads of Jersey to Philaline from Chicago to New York, thence on through the fine roads of Jersey to Phila-delphia, the work will be then up to the Delaware and Maryland divisions to finish the 'grand trunk' on through Baltimore to the Nation's Capital."

### A MARYLAND STEEPLECHASE. Annual Run of the Overland Hunt Club on May 23.

BALTIMORE. May 9.-The Overland Hunt Club will hold its third annual steeplechase on Wednesday, May 23, and the entries will close May 21. The course will be about four miles long, over a fine hunting country in the vicinity of Loch Raven, and the start will be at 4.0'clock in the and the start with se at 4-0 clock in the afternoon. The prize will be a silver cup. The event is open to members of any recognized hunt club in the State. The weight will be 150 pounds, with 15 pounds added for thoroughbreds. The entrance is \$5. The committees are: Course, Dr. R. \$5. The committees are: Course, Dr. R. Percy Smith. Thomas G. Stevenson, and T. A. B. Dukehart; cup. F. H. Zimmerman and C. C. West. James F. ### BRIDGE-JUMPER INSANE.

The Young New York Woman Looses

NEW YORK, May 9.-Marie Rosalie Dinse, the first woman to jump from Brooklyn Bridge, will pay a penalty for her deed worse than the death she sought. She is hopelessly insane. She was removed from the prison ward in Bellevue Hospital yesterday to the insane pavilion. The doctors declare there is no chance for her re-

Many men have accomplished the fea of jumping from the bridge, and those who escaped death have recovered little worse for the experience. In no instance excep in the case of Miss Dinse has the jumper's mind been impaired.

Physicans who examined the woman af-ter her leap found that she had sustained comparatively triffing physical injuries. There were contusions about the body, but no worse than would have resulted from a slight fall. At Hudson Street Hospital where she was first taken, the surgeons de clared she could be discharged within a few days. They believed the hysteria from which she suffered would respond to thei treatment if the patient were given absoute rest. With this object in view, all visitors were denied admittance to he ward. But the apathy, which was from the first

a marked characteristic of her case, in-reased instead of lessened. She soon de-reloped extreme melancholia. She refused food, and stimulants had to be adminisered artificially.

Day by day her condition grew worse, and last week pronounced symptoms of in-anity developed. Every expedient was imployed to divert her mind from the oreal through which she had passed. o the patient the picture of the leap from he bridge was constantly before her mind's

Since her commitment to the prison ward merous letters tendering ass an offer of marriage have been received The policeman who had been detailed to guard her was relieved, and she was no nformed that she would have to answer t he law for her deed. But her mind su cumbed to the memory of the jump through space, and yesterday she collapsed. She will be taken to the hospital for the insane on Randall's Island.

### PRIZE RING AMENITIES.

Jeffries and Corbett Talk About

NEW YORK, May 9 .- In sporting circles is said that in order to secure a little dvertising J. J. Corbett has made a vigrous objection to the selection of Charley White for referee. Corbett, it is said, with the consent of Manager Brady, called Brady a few hard names, and Brady, with the consent of Corbett, called Corbett a

Today the pugilists, by mutual agree ment, attacked one another with hot words. Corbett, among other things, to-

only five buildings are left standing. A relief train took away one load of people, and started to return after the rest. A mile out of Corbett stays ten rounds in our bout, as I will give him no rest. He certainly an't hit hard enough to do me any harm, and by keeping after him Low bounds.

The City of Cumberland Compro-CUMBERLAND, Md., May 9 .- A compromise has been reached between the of the injunction proceedings and the pulp mill will use the soda process which, it is

The process will go into operation August 1. The Mayor of Cumberland advises the introduction of a filtering plant at Sick Man Killed With a once.

Only Five Buildings Left Standing

day says:

"I haven't the least fear of the result of my fight Friday with that slow cart horse, town of Corbett, five miles west of Gale-Jeffries. I am positive that he will not be able to reach me in twenty-five rounds. I look upon this as a very easy fight, and know that at the end of it I will once Only five buildings are left standing. A Only five buildings are left standing. A

the train to turn back. George Luke and wife, an aged couple, were surrounded by the fire and burned to death.

Many of the women and children who escaped were seriously burned. Not a dollar's worth of property was saved from the burned homes. The people were glad or get away alive. As there is a large clearing near the town no anxiety is felt for the safety of those left behind.

All through trains on the Buffalo and Susquehanna Railroad were abandoned.

Susquehanna Railroad were abandoned Since Monday night the employes of the promise has been reached between the city of Cumberland and the Luke Pulp Mill. The city will pay \$300 or \$400 costs of the injunction proceedings and the pulp mill will use the soda process which, it is claimed, will stop the pollution of the Po-The damage to timber lands amounts to

Sick Man Killed With a Gun. LEONARDSTOWN, Md., May 3 .--Thomas B. Watts, a former county commissioner of St. Mary's county, was killed day. Mr. Watts, who was sick in bed, had

# SOPES and UICEPS DRAIN THE SYSTEM,

That old sore or ulcer, which has been a source of pain, worry and anxiety to you for ENDANGER

That old sore or ulcer, which has been a source of pain, worry and anxiety to you for five or ten years — maybe longer — doesn't heal because you are not using the proper treatment, but are trying to cure it with salves and washes While these are soothing and relieve pain to some extent, no real, permanent good can come from their use, because the disease is in the blood and far beyond the reach of external applications.

A sore heals promptly when the blood is in good condition, but nover if it is diseased. The tendency of these old sores and ulcers is to grow worse, spreading and eating deeper into the flesh. They are a constant drain upon the system, gradually but surely ruin the health and sap the very life.

S. S. makes a rapid and permanent cure of old sores and ulcers, and is the only medicine that close, because no other can reach deep-seated blood troubles. Ordinary Sarsaparilla and potash mixtures are too weak and watery to overcome a deadly poison that has taken possession of the blood. Do not are too weak and watery to overcome a deadly poison that has taken possession of the blood. Do not waste valuable time experimenting with them.

"Some years ago I was shot in the left leg, receiving what I considered only a slight wound. It was treated by many doctors, and took a number of blood remedies, but none did me any good. I had heard S. S. S. highly recommended and concluded to give it a trial. The result was truly gratifying. S. S. S. seemed to get right at the trouble, and forced the poison out of my blood; soon afterwards the sore healed up and was cured sound and well. I now have perfect use of the leg, which was swollen and very stiff for a long time.

J. M. McBrayer, Lawrenceburg, Ky."

S. S. S. is the only purely vegetable blood purifier known; is made of roots and herbs of wonderful purifying properties, which no poison can resist. S. S. S. quickly and effectually clears the blood of all morbid, unhealthy humors, and the old, troublesome sore heals. At the same time the general health is invigorated and built up. When a little scratch or hurt fails to heal readily, you may be sure your blood is bad. S. S. S. will soon put it in order and heap it.

put it in order and keep it so. Our Medical Department is in charge of experienced physicians, who have made blood diseases a life study. If you will write them about your case, they will gladly furnish all information or advice wanted, without any charge whatever.
